

Agroinvest s.a. - Aquaculture : Delivering delicious and nutritious Mediterranean fish to consumers worldwide

Agroinvest s.a.

A BRIEF OVERVIEW

Agroinvest s.a. is a leading Greek industrial company with integrated operations in Agribusiness, Food and Bioenergy.

We are a company built to last. Starting from agricultural raw materials, we create and trade a multitude of added value products.

Our strategic pillars are:

- Proteins & Seed Oils
- Biodiesel & Glycerine
- Fish & Animal Feed
- Aquaculture

Our Farms

are located in the crystal-clear waters of eastern Peloponnese, ensuring that our fish grow under natural conditions. Being producers of our own fish feed, we are able to guarantee premium nutritional value and raw material quality.

Our Mediterranean Fish

offer simultaneously a superb culinary experience and a multitude of health benefits.

We offer the following delicious fish:

- Sea Bream / Dorade Royale / Orata
- Sea Bass / Loup de Mer / Branzino

Quality Assurance

- Quality Management System: ISO 9001
- Environmental Management System: ISO 14001
- HACCP : ISO 22000

Membership

Agroinvest is a member of the Federation of Greek Mariculture (FGM), and is a member of its governing council.

“FGM is focusing in the establishment and the promotion of the successful development of the Greek Mariculture Industry.”

Looking forward to doing business with you, we:

- have a steady year-round production, express global delivery and guaranteed freshness through robust packaging
- cover special orders, with packaging conveniences of 3, 4, 5, 6 & 10 kilos and distribute to a worldwide network
- export globally to destinations like Italy, Spain, France, Israel, Switzerland, Benelux, Germany, USA and Canada
